Drs Anke Koelman teaches
How to help children become successful learners

Learn about Brain Gym® and the SureReading method so that your students can learn easier, faster and smarter

When an area in the brain cannot be accessed, learning cannot take place. Increasing access to all areas of the brain required for learning, as well as identifying and addressing any missing prerequisite skills results in Quantum Improvements in Learning. **Brain Gym®** exercises have shown to be effective in improving coordination, literacy, numeracy, concentration and behaviour.

**SureReading** is an innovative method for children with Dyslexia, language problems & AD(H)D. It enables them to learn how to read, write and spell, often with dramatic results. A Dyslexic Australian boy could not read at all when he was nine years old, but after doing the **Brain Gym®** exercises & the **SureReading** method he subsequently successfully completed a double degree in law and engineering.

**Quantum Learning Improvement**

What people have to say after attending this course

**I think it is excellent and I can’t wait to use it so I can see results. It all makes sense.**  Julie Braiotta, Primary School Teacher

**Worth its weight in gold. Invaluable!**
Margaret Irving, Literacy Coordinator

**The course was such a mind-opening discovery that I can’t wait to put it into use with my kids and for myself**
Ingrid G., Graphic Designer
